

RETRO-PAR 2.0

Incandescent Replacement LED Engine

Energy Efficient LED Light Engine

Designed to retrofit directly into existing fixtures.

The RETRO-PAR Series is a CSA listed retrofit kit that rapidly transforms existing inefficient incandescent fixtures into energy efficient LED fixtures. Our patented technology allows the fixture to smoothly dim from 0-100% utilizing existing dimming technology. Retrofit kits are available with a variety of options for both recessed and pendant style fixtures. Installation is as easy as changing a light bulb. Our LED technology creates even fields and delivers consistent color. The RETRO series delivers more light than most incandescent bulbs it replaces with less watt load. Canto USA offers, PAR38, PAR46, PAR56 and PAR 64 options as well as custom rings when needed.

**10 Year
